Snell

Snell
Series 7
SR7

Versatile Wall-mount Surround

Select for Diffuse or Direct Operation

The SR7 is a high-performance, wall-mount, surround speaker with a selectable radiation pattern. Like most Snell surrounds it can be used as a diffuse dispersion dipole or a wide dispersion monopole. In the diffuse mode, the SR7 directs its energy away from the listening area, performing like an array of movie theater surround speakers. This creates a diffuse, lifelike ambient soundfield. In the direct mode the SR7 functions as a wide dispersion direct radiator, perfect for localized surround effects. Beautifully made and styled to match Snell's Series 7 line of in-room speakers, the SR7's shallow cabinet houses a 5 1/4-inch long throw woofer mounted under a 1-inch cloth dome tweeter. This tweeter is in operation in the "Direct" mode. In the "Diffuse" mode, the side mounted 2 1/2 inch tweeters replace the front tweeter. Most system designers specify three or four surrounds, diffuse speakers for side surrounds and direct speakers for rear surrounds. The SR7 is designed for both. Voiced to match all Snell speakers, it mounts easily and virtually disappears on the wall.

SR7

Design	Acoustic Suspension, Multi-Pattern, On-Wall Surround
Frequency Response	80Hz-20kHz±3dB (80Hz-15kHz±3dB, "Diffuse" mode)
Sensitivity	89dB
Nominal Impedance	6 Ohms
Crossover Frequency	2.5kHz
Recommended Amplifier Power	20-150Watts
Maximum Output (per pair)	102dB
Placement	Wall-Mount
Input Connection	5-way Binding Post, Accepts 12 Gauge Wire
Drive Units	Tweeter: 1-inch Cloth Dome (Direct)
	Tweeter: Two 2.5-inch Cone (Diffuse)
	Woofer: 5.25-inch Poly, 5mm Excursion
Dimensions	Height: 11.75-inches
	Width: 10.38-inches
	Depth: 5.63-inches
Grille:	White or Black Perforated Metal 53% Open
End Caps:	Solid Aluminum Plate, White or Black
	Can be Custom Painted to Match any Décor
Manufactured by	Snell Acoustics, PO 3717, Peabody MA 01960
